

The **Interceptor DV 15 RWS** is a sea proven ultra-high speed interceptor. As the **DV15** (45 units delivered), is based on Deep Vee planning hull with hard chines for deflection.

The **Interceptor DV 15 RWS** is a high performance craft manufactured from advanced composite materials.

## Missions

- > Sea policing and maritime security
- > Fight against piracy, trafficking, smuggling and illegal immigration
- > Protection of vulnerable vessels, harbor and offshore installations
- > Combined operations with aircraft and coastal surveillance systems
- > Sea strike operations
- > Defense against asymmetric threats and speedboats
- > Maritime counter-terrorism

## Performance and Competitive Features

- > Sea Proven with firing campaign
- > Hull form optimized for high speed navigation
- > Unprecedented performances
- > Up to 30mm remote controlled gun

## Main Characteristics

- > Length Overall ..... **15.50 m**
- > Beam Overall ..... **3.00 m**
- > Maximum speed ..... **50 Knots +**
- > Range at 40 Knots ..... **350 NM**
- > Crew ..... **4**
- > Fuel ..... **2.2 m<sup>3</sup>**
- > Hull & Superstructure ..... **Composite**
- > Classification ..... **Bureau Veritas**

## Main Equipment & Auxiliaries

- > Two diesel engines
- > One surface drive system (two propellers)

## Typical Mission Systems

- > One remote-controlled gun system (up to 30 mm)
- > One 7.62 mm manual gun
- > One 4 KW Navigation radar
- > One Tactical V/UHF
- > One C2 system
